Thanks for your D.O. of 8th July 1918. I send you a copy of the letter addressed to the Secretary to Government on this subject. I have proposed one Jaistry and four sweepers for the present to work under the Sanitary Inspector. If it is absolutely necessary we will increase the staff later on. The rules in regard to the duties of the Special Sanitary Inspector and his staff, have, as you rightly observe, to be approved by the District Board who will pay for and control the work of the staff.

2 The rules for the periodical inspections of Pathanala Supply which you have enclosed with your D.O. appear to be good. Rule 7 provides for a copy of the report being sent to the President, Sanitary Board. All the members of the Sanitary Board including Dr. O'Donnell will presumably have an opportunity of seeing the report. In para 8, instead of "Deputy Commissioner, Kolar District", it will be better to say "President, District Board, Kolar".

Sir,

With reference to your letter No. 2761 L.B. 83-17-21 dated the 19th August 1918, I have the honour to enclose herein copy of memo No. M. 442 dated the 15th January 1919, from the Chief Engineer of Mysore forwarding copy of instructions issued to the Superintending Engineer, Southern Circle, to convene meetings, to make inspections and to take all other action according to the draft rules, in anticipation of the approval of Government. I gather from this that the Chief Engineer has furnished his opinion regarding the draft rules direct to Government.

2. I would add one more clause under para 2 of the draft rules submitted with this office letter No. G.C. 12-7 dated the 12th July last. It is that the subordinate staff should not be apprised of an intended inspection by the Committee, so that the Inspecting Officers may have opportunities of testing the every-day actual working conditions.

RULES FOR THE PERIODICAL INSPECTION OF BETHAMANGALA WATER-SUPPLY.

1. The following officers will constitute the Committee for the periodical inspection of the Bethamangala Water-Supply:—

(*a*) the Executive Engineer, Water-Supply Division (Convener)

(*b*) the Health Officer, Kolar Gold Fields, and

(*c*) the District Sanitary Officer, Kolar District.

2. The Committee should inspect the Bethamangala Water Works not less than once every three months, the date of visit being previously intimated to the Superintendent of the Water Works or other authority.

3. The condition of sanitation in the villages on the Palar river constituted into a special area for purposes of safeguarding the purity of the water-supply may also be inspected by the Committee as a part of the prescribed periodical inspections.

4. The Committee should examine the records of the Jewell filters to see whether the results of bacteriological examination have been uniformly satisfactory and, in case the periodical analyses, chemical as well as bacteriological, reveal shortcomings in the standard of purity should endeavour to trace what the causes are that contribute thereto.

5. The alum should be examined to see if it is of the approved quality and is added in correct quantities.

6. The following items should also be noticed by the Committee:—

(*a*) regulation of the rate of filtertion and

(*b*) leakages, if any, in the main and service pipes, which should be determined by actual testing.

7. A report embodying the results of inspection should be forwarded to the President of the Sanitary Board, Kolar Gold Fields, within ten days of the inspection, a copy being at the same time sent to the Chief Engineer and to the Sanitary Commissioner.

8. The periodical inspection of the sanitation of the special villages on the Palar river will be regulated by the rules framed by the Committee and approved by the President, Sanitary Board, Kolar Gold Fields, and Deputy Commissioner, Kolar District, and the Sanitary Commissioner.

(*Approved in Government Order No. 12321—4 L. B. 83-17-36 dated the 26th. March 1919.*)

A. K. PANI,
Offg. Sanitary Commissioner.
